

TINY HONEYCOMB EARRINGS

Supplies:

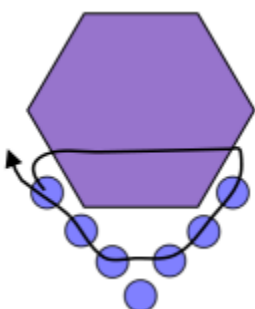

- 11/0 seed beads (SB11)
- 8/0 seed beads (SB8)
- 2-hole Honeycomb beads (H)
- 4mm jump rings
- Earring wires
- Fireline

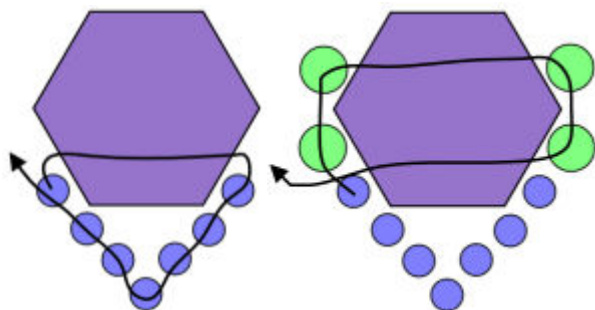

1. Pick up one H + seven SB11. Go back around through all of the beads again to make a circle, leaving a tail long enough to weave in. Tie a knot.

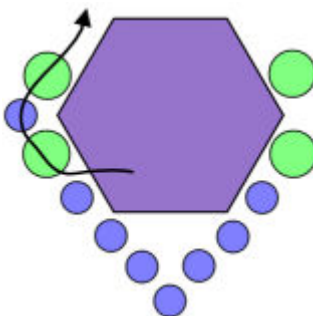

2. Go through the H and the first three SB11. Skip the next SB11 and go through the last three SB11. Pop out the skipped bead. Go around one more time, skipping the center bead again.

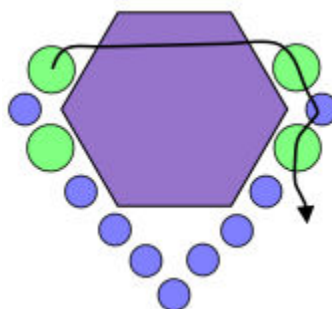

3. Go through the H and all seven SB11. Pick up two SB8 and go through the open hole of the H. Pick up two SB8 and go through the other hole of the H.

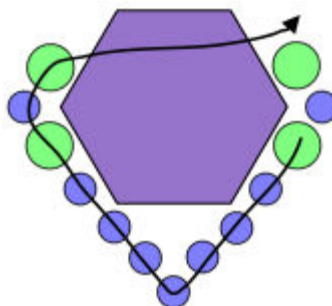

4. Go through the next SB8. Pick up one SB11 and go through the second SB8.

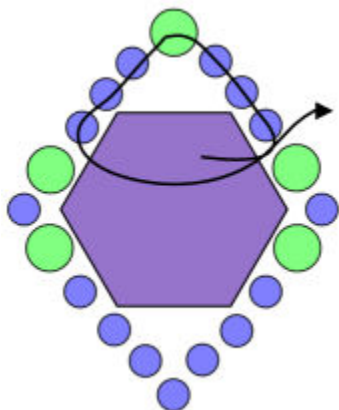

5. Go through the H and the next SB8. Pick up one SB11 and go through the second SB8.

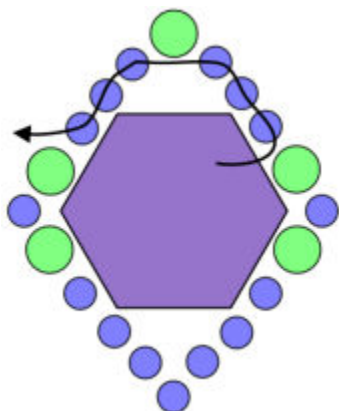

6. Go around through the seven SB11, the next SB8, SB11 and SB8. Go through the H.

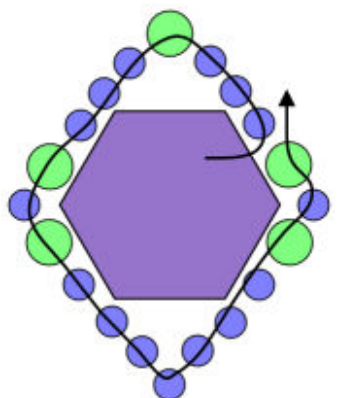

7. Pick up three SB11 + one SB8 + three SB11. Go back around and through the H.

8. Go through the first three SB11. Skip the SB8 and go through the next three SB11. Pop out the SB8 that you skipped. Go through the H and the first three SB11. Skip the SB8 again and go through the next three SB11 and the H. Go around through the seed beads once more but don't skip the SB8 this time.

9. Weave around the entire perimeter once or twice then weave in the working thread and cut off. Weave in the tail and cut off.

10. Insert a jump ring through the SB8 at the top of each earring and attach the earring wires to the jump rings.
